

I hope you all 'recovered' well from either our great Late Summer Drink 2009 two weeks ago and/or from a good summer holiday, after which I can only wish you happy reading of our 6th Newsletter!

Jan Hoogenboom, CEO

TNF, Stayclose, InterXion, Speakup, Pelican, SchubergPhilis, Orwell, Dataweb, Digires, Denit, Icehosting, Reasonnet, Osso, Netvictory, Netexpo, SKV, SevenP, Telety, Phyxia, KPN, TriNed, Fiberring, Concepts-ICT, T-Mobile

EXCEPTIONAL TURNOUT AT 2nd NL-ix LATE SUMMER DRINK

On September 23 an exceptionally large turnout of attendants enjoyed the 2nd edition of the NL-ix Summer Drink. More than 200 telecom professionals gathered together at the cozy Beachclub "Culpepper" in Scheveningen, to exchange business cards, to enjoy the drinks, food and entertainment, and to share the latest telecom gossip and nice-to-knows.

Like in the last year edition, attendants could also win an Award, this time in being the best in finding the 'winning match' at the event. NL-ix congratulates Jeroen Vermeulen from Siennax/SAASPlaza and Rob Nijhof of Dataweb with winning this game and the flatscreen television sets!

Due to the success of this event, NL-ix will organize another Late Summer Drink in 2010. Stay tuned to this channel to receive the latest on this! More pictures off the event can be viewed at: <http://www.nl-ix.net/drink/gallery.html>

DID YOU KNOW...

that Arno Griffioen, chief backbone engineer at NL-ix, is also a fanatic car racer, contributing yearly to the "Maarten memorial" as sponsored by NL-ix. See also www.maartenmemorial.com/

'IPv6 AWARDS' IN THE REBOUND

On Thursday November 26, the Dutch IPv6 Taskforce will organise the "IPv6 AWARD" in the Fortis Circustheater in Scheveningen.

The same taskforce organised a similar event a year ago, which unfortunately appeared to come too early for the IPv6 world to have enough IPv6 initiatives anyhow to award, and had to be cancelled.

"This year, there are clearly much more IPv6 initiatives to nominate, which is indicative of the sense of urgency that is finally becoming apparent. I really hope that this year's awards will be a huge success and that next year we can cancel the awards again for the reason that IPv6 is mature by then." smiles Erik Huizer, Chairman of the IPv6 Taskforce.

Potential nominees can still give it a try by presenting their IPv6 contribution at

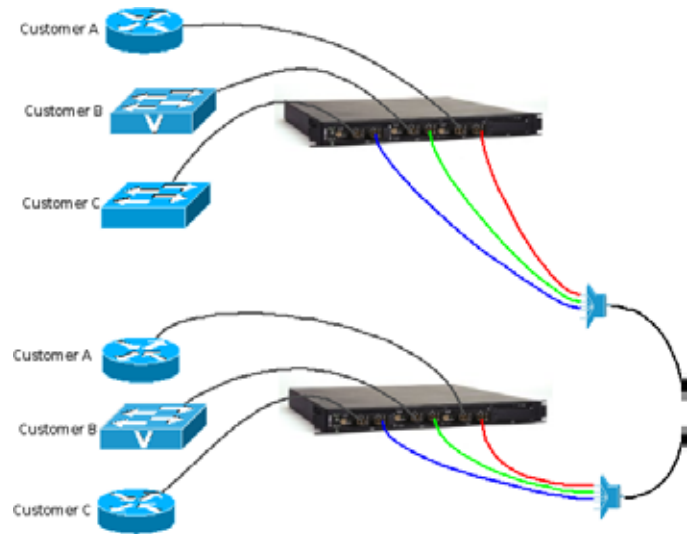

www.ipv6-taskforce.nl/awards/

In the spirit of this event, NL-ix has decided to extend its "free IPv6 Transit" action till July 2010!

Please contact info@nl-ix.net for information on this.

NL-ix EXPANDS ITS MANAGED WAVE PORTFOLIO

About a year ago, NL-ix introduced its new Managed Wavelength Portfolio, as the fully transparent alternative for its traditional CityLAN Ethernet, and the more simple alternative for its Dark Fiber products. Over the last year, the interest of our

customers for this product did grow so rapidly that we recently expanded the amount of 'Wave-capable' POP's to already 15 Datacenters, and can now deliver on 100 Mb, 1 Gb and 10 Gb speeds, all interfacing on shorthaul lasers (1 & 10 Gb), or even on copper (100 Mb).

Compared with our CityLAN's, these Managed Waves may have advantages with respect to 'Layer2 transparency' and 'used mac-addresses'.

Compared with our fibers, the Waves may avoid worries on expensive long-distance lasers and/or repeaters.

Please contact sales@nl-ix.net for more information.

NL-ix & GLOBAL-E SIGN FOR YET ANOTHER DATACENTER

During the last edition of the Late Summer Drink, NL-ix and Global-E signed a contract on Global-E being the the 31st datacenter with NL-ix presence:

Global-E Datacenter, Haansbergweg 12, Rijen

Ronald Voermans (CEO of Global-E) and Jan Hoogenboom (CEO of NL-ix) signing the contract

Our complete list of datacenters can be found at www.nl-ix.net/datacenters
